

M240 MEDIUM WEIGHT MACHINE GUN

MANUFACTURED BY OHIO ORDNANCE WORKS, INC.

The current US military medium weight machine gun (M240) is a belt fed, air-cooled, crew serve machine gun system capable of sustained and accurate suppressive fire that far surpasses its predecessor, the M60. Providing a competitive and superior quality alternative, Ohio Ordnance Works, Inc. (OOW), offers a complete M240 medium weight machine gun package. All special tools, barrels, internal parts, depot level repairs and rebuilds are available upon purchase of the M240 Gun System with all versions, from the Basic to the November, available at time of order.

OOW is a Type 10 NFA Firearms Manufacturer and Type 08 NFA Firearms Importer. We are a Federal Firearms License Holder that specializes in arsenal level manufacturing, repairing, rebuilding and servicing of small arms and crew served weapon systems. With a depth of experience, a comprehensive parts inventory and the tooling, gauges, and fixtures to execute complex job requirements, OOW is an obvious choice for your manufacturing requirements.

OOW stands ready to fill any and all of your small arms and crew served weapons needs. OOW has proven time and time again to all the branches of the US Military Services and some NATO allied countries that our products are among the best offered by any firearms manufacturing company. We are equipped to accommodate all aspects of manufacturing, sales, and distribution – both domestic and international – and stand willing to serve and able to deliver.
