

M249 SQUAD AUTOMATIC WEAPON (S.A.W.)

MANUFACTURED BY OHIO ORDNANCE WORKS, INC.

The M249 is the belt-fed, air-cooled, fully automatic light machine gun currently deployed by US and international forces. Since the invasion of Panama in 1989, the S.A.W. has proven itself in every major US conflict. For over 20 years, the M249 has seen every possible condition and environment and continues to come out on top.

Ohio Ordnance Works, Inc. is proud to produce the S.A.W. promising:

- Consistent, reliable, on-time delivery achieved with ISO certified, multi-tier inspections
- Ready for battle right out of the box – Tested for functionality and accuracy at the factory
- Risk Free Purchasing with our “no nonsense” parts and workmanship warrantee
- Be prepared for any environment or scenario – Multiple Configuration options allow you to customize to a unit’s specific needs

Ohio Ordnance Works, Inc. has been designing, machining, and assembling high quality machine guns for over 30 years. With the addition of the M249 S.A.W. to our production line, OOW has evolved to provide the customer with a single source for their Crew Served Weapons needs.
